

Information about Fintey The African Painted Dog, Starlight The Wolf And Cosmic The Border Collie.

Fintey

Breed: African Painted Dog.

Age: 17 in Human Years (A Teenager.)

Personality: Shy And Nerves.

Hi I am Fintey a beautiful female African Painted Dog. I am very shy and nerves girl so please take care and be calm when approaching and meeting me. As I am easily spooked by sudden movements and excited approaches by people and other Animals.

I was born in Africa on the planes and was part of a pack of other dogs for a long time. I wasn't dominant like the other females in my pack. I remained most of my time back at our packs den. My Mother was the pack leader she was brave and a strong dog she also wasn't scared by anything. I am nothing like her and will never be a dominant dog like her ether. My brother's and sisters took after her but not me. I was special or so I thought.

I lived in Africa for a long time but when I realised there was no place for me there I left my pack and started my big journey to the United Kingdom and Eastbourne where I wound up after a long journey by plane from Africa. I found my true place where I belong here and have lived here happily ever since.

I am most happy when I am having quite time in my den socialising with friends sleeping and playing with my squeaky bone that I carry round my neck that I have had every since I was a little puppy. At my old den and my new one. It makes me feel secure contented and happy. I also enjoy keeping in contact with my parents and travelling to Africa to see them sometimes to.

Cosmic Collie

Breed: Border Collie.

Age: 18 (A Teenager.)

Personality: Mischievous and A Deva.

Hi I am Cosmic Collie. I am very Naughty a bit mischievous and A bit of a Deva. Don't be surprised if I refuse to do something when I am asked to. I also have a bad attitude so will give a loud and an aggressive bark when I am in a bad mood. But don't worry I won't bite or actually be aggressive towards you or hurt you. I just like making myself look tough that's all.

I had rough start to life. I lived happily on my Farm with mum and dad. I was trained to heard sheep but was easily distracted by music I would dance and sing along.

I was then sold to a Farmer who was tough and had a lot of experience in training unruly sheep dogs he trained my dad Rex.

I was to be moulded into the perfect sheep dog to heard sheep with tough discipline. There was a Border Collie called Casper on this farm who was a perfectionist and didn't have any patients with puppies. I learnt not to distract or he would get really mad and growl.

When the farmer gave me trials with his sheep I failed miserably being constantly distracted by the music coming from a nearby music festival I would dance and sing. On my last fail I was evicted from the farm and had to fend for myself.

When I was in my younger teens. I got involved with the wrong kind of dogs they were called The Villainous Raptor Collie's who were a Punk/Rock Band.

I was tricked into thinking they were looking for back stage crew as I had always had a fascination with music from a young age. But they weren't looking for backstage crew they wanted to do nasty things to me instead. I was warned by Mick who was a mechanic but I didn't listen and learnt the hard way. So after my bad experiences I escaped found my way back to Mum and Dad and lived happily on there Farm once more.

I was born on The Hogget's Farm. Where they filmed Babe the 1993 film I was in it as a puppy and so were my siblings, My Mother was the famous Fly and My Dad was the even more famous Rex a champion sheep dog. Who also featured in Babe I guess you could say I was a famous child star or a puppy star for that matter. I was the Youngest of 4 siblings I had one older Brother and two

older sisters. My Brother was called Blaze and My two older Sisters were called Saffiya and Crystal. They had the makings of great Sheep Dog's trained By Rex our dad I did not. No matter how hard I tried I couldn't do it I was easily distracted.

I then eventually became part of a special needs band called Delta 7 I played drums and became their mascot taking over from their previous mascot Speedy The Hero Dog Greyhound who retired. The band named me "Cosmic" though it was already my name. My name comes from a previously named Character Cosmic The Beagle who is also a dog.
